COURSE OVERVIEW

The **Swagelok® Total Support Training** course is designed to provide education in both a classroom environment, as well as hands-on exercises for anyone dealing with the installation of Swagelok tube fittings, such as fabricators, contractors, operators and technicians. The student will walk away with extensive knowledge of tube fitting design, proper tubing selection and handling, correct Swagelok tube fitting installation, piping thread lubrication and tube bending tools. Students perform hands-on exercises and take home a seminar manual, tube bending calculator, and a practical exercise assembly constructed of tube fittings and tubing.

COURSE CONTENT

- Advantages of tubing systems compared to pipe
- Criteria for tubing selection, such as environment, temperature and pressure
- Proper care and handling of tubing
- Swagelok tube fitting installation instructions (hands-on), including ability to gauge
- Swagelok tube fitting re-tightening instructions and pre-swaging instructions
- Training on common tools, (i.e. Tube Cutter, Deburring Tool, and Tube Benders)
